

MORE OUTPUT. LESS FLOOR SPACE.

Complete machine tool + automation solutions
engineered to increase throughput, precision,
and profitability.

SPEED & THROUGHPUT

Increase Output
Without Expanding

- High-Speed 3,4 and 5-axis machining up to 27,000 RPM
- Faster cycle times, higher part volume
- Compact footprint = more per sq. ft.

brother SPEEDIO

COMPLEXITY & EFFICIENCY

Reduce Setups.
Do More in One Machine.

- Multi-tasking turning up to 9-axis
- Milling, transfer, and finishing in one cycle
- Automation-ready platforms

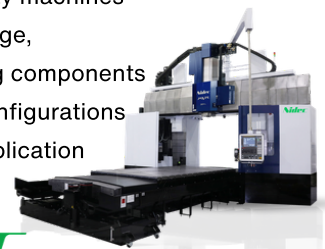

**Nidec
TAKISAWA**

LARGE PART CAPABILITY

Handle Bigger Parts
with Confidence

- Heavy-duty, high-rigidity machines
- Built for large, demanding components
- Flexible configurations for any application

Nidec

COMPLETE PROCESS CONTROL - FROM SPINDLE TO FINISHED PART

TOOLING + AUTOMATION

- Integrated tooling, workholding, and measurement.
- **FLEX3** automation systems for SPEEDIO.
- Custom automation for turning and machining.
- Scalable cells for lights-out production.

HIT TIGHT TOLERANCES

Perfect for aerospace,
medical, & mold shops

- High-precision 3, 4 and 5-axis machining
- Graphite and die/mold expertise
- Aerospace & Defense applications
