PRECISION TOOLING. PROVEN PERFORMANCE.

Innovative solutions for drilling, tapping, milling, and threading applications.

- Industry-leading taps and thread mills
- High-performance drills and end mills
- Solutions for difficult-to-machine materials
- Trusted across aerospace, automotive, and medical industries

COMPLETE METAL CUTTING SOLUTIONS

Advanced tooling engineered for productivity and process reliability.

- Turning, milling, and drilling systems
- High-performance inserts and grades
- Solutions for a wide range of materials
- Optimized for high-volume production

INDUSTRY-LEADING METALWORKING TECHNOLOGY

Comprehensive tooling solutions for today's manufacturers.

- Holmaking, milling, and turning solutions
- Premium carbide and indexable tooling
- Standard and engineered tooling systems
- Proven performance across all industries

HIGH-PERFORMANCE CUTTING TOOL SOLUTIONS

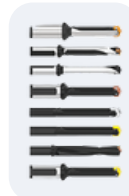

Precision-engineered tooling designed to maximize efficiency.

- Turning, milling, and grooving systems
- Solid carbide and indexable tooling
- Advanced insert technologies
- Increased productivity and tool life

LEADERS IN HOLEMAKING TECHNOLOGY

Innovative solutions for precision holemaking applications.

- Drilling, boring, and reaming systems
- Replaceable-tip and indexable tooling
- Custom-engineered solutions available
- Reduced cycle times and tooling costs

MICRO MACHINING EXCELLENCE

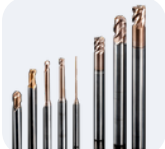

Swiss precision for small-diameter machining applications.

- High-performance micro drills and end mills
- Deep-hole drilling capabilities
- Exceptional precision and repeatability
- Ideal for medical and aerospace applications

ULTRA-PRECISION CARBIDE END MILLS

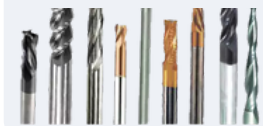

Engineered for high-speed and high-accuracy machining.

- Micro-diameter milling solutions
- Exceptional surface finish performance
- High-speed machining capabilities
- Ideal for mold, die, and precision components

PREMIUM TAPPING SOLUTIONS

EXCLUSIVELY AVAILABLE

Reliable threading performance across a wide range of materials.

- High-quality taps and threading tools
- Consistent performance and tool life
- Solutions for production environments
- Cost-effective threading operations

CUSTOM TOOLING SOLUTIONS

Specialized tools designed for unique manufacturing requirements.

- Custom carbide cutting tools
- Dovetail and form tool solutions
- Engraving and specialty applications
- Engineered to meet exact specifications

GUHRING

LEADERS IN HOLEMAKING & CUTTING TOOLS

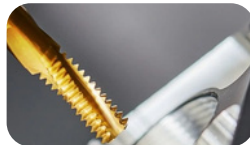

*Innovative tooling solutions for
maximum productivity.*

- Drilling, milling, threading, and reaming solutions
- Premium carbide and indexable tooling
- Advanced coatings for extended tool life
- Standard and custom tooling available

EMUGE FRANKEN

PRECISION THREADING & MILLING

*Engineered for accuracy,
consistency, and performance.*

- Industry-leading taps and thread mills
- High-performance milling cutters
- Solutions for complex machining applications
- Exceptional accuracy and reliability

GARR TOOL

High Performance Solid Carbide

HIGH-PERFORMANCE CARBIDE END MILLS

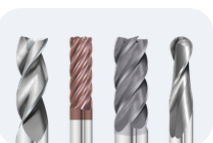

*American-made tools built for
demanding applications.*

- Solid carbide end mills for every application
- Advanced geometries and coatings
- Optimized for high-efficiency machining
- Made in the USA

FULLERTON

CUSTOM TOOLING. SUPERIOR RESULTS.

*Precision-engineered solutions for
unique machining challenges.*

- Standard and custom carbide tooling
- Milling, drilling, and reaming solutions
- Aerospace and medical expertise
- Precision-engineered performance

VARGUS

NEUMO Ehrenberg Group

THREADING & GROOVING SPECIALISTS

*Advanced tooling that improves
process efficiency.*

- Threading, grooving, and deburring solutions
- Internal and external threading systems
- Innovative tooling technologies
- Increased productivity and tool life

ENGINEERED FOR PRODUCTIVITY

*High-performance cutting tools for
today's manufacturers.*

- Premium carbide cutting tools
- Standard and custom solutions
- Milling and holemaking applications
- Fast, reliable performance

SWISS PRECISION CUTTING TOOLS

*Premium tooling designed for
precision manufacturing.*

- High-performance milling and drilling tools
- Exceptional tool life and accuracy
- Solutions for advanced materials
- Swiss-engineered quality

VIKING DRILL & TOOL

AMERICAN-MADE DRILLING SOLUTIONS

*Trusted quality for production
and maintenance operations.*

- Complete line of drills and taps
- Consistent quality and performance
- Extensive product availability
- Made in the USA
